

# PUMP SYSTEM RETROFIT

Improve performance and capacity.

Buckeye Pumps retrofit service is a cost effective solution for improving the performance and capacity of older municipal, industrial waste and potable water systems.

Retrofit services include:

- Demolition and disposal
- Electrical and controls
- Piping and concrete
- The latest pumps and systems

*Glycol pump station valve vault rehabilitation before and after.*

*Vertical turbine replacement retrofit before and after.*

*Triplex head works pump station upgrade.*

Buckeye Pumps has a 15,000 sq. ft. repair service center in Galion, OH, and application engineers throughout Ohio, Indiana and Kentucky. Contact one of our application engineers or service technicians in your area.
